Dear Dr.

Advanced Biotech is interested in supplying the approved wound care product, Healicoll. Its technology is patented in U.S.A and our product helps in enhancing wound healing, reducing pain, increases epithelialization, reduces scar formation and it is a 100% Type I collagen. Currently the product is being used at Washington Hospital in Fremont, San Jose Regional Wound Care Center, Santa Clara Valley Health and other major burn centers in the U.S. and abroad. Dr. Kelly, Dr. Shapshack and Dr. Blasko are currently using the products with great success. While in India it is currently used by many successful doctors like in Vellore Christian Medical College, Dr. Prema Danraj, Kilpauk Medical college, Dr. Dhanickachalam, Rajaji Govt Hospital, Dr. Narayanan, Dr. Sam C Bose, Dr. Ravichandran, Tanjore Medical College, Dr. Joseph Victor, Dr. Raveendran, Stanley Medical College, Dr. T.C. Chandran, Bangalore Bowring Lady Curson Hospital, Dr. B.G. Tilak, Delhi Saftarjung Hospital, Dr. R.P. Narayanan.

Healicoll is a US-FDA approved Type I collagen wound dressing sheet that is free of contaminants and immunogenic proteins. It is manufactured by Advanced Biotech Product (P) Limited in Tamilnadu using patented technologies.

Healicoll is used for first and second degree burns, partial and full-thickness wounds, post laser treatment, as well as pressure, venous, vascular, and diabetic ulcers. Trauma wounds such as abrasions, lacerations, skin tears and donor sites are also indicated uses.

Contd.....2.

Advantage of Using Healicoll:

- ❖ The high purity type I collagen dressing of Healicoll avoids many potential health risks normally caused by contamination of type-III collagen, elastin and other immunogenic molecules.
- ❖ Healicoll provides haemostasis and is highly cost-effective. Healicoll can be applied immediately upon soaking in sterile water or normal saline solution for 3 to 5 minutes.
- ❖ No pre-treatments or washing is required.
- ❖ Healicoll significantly reduces wound pain and scarring compared to other dressings, while it helps in accelerating wound healing tissue remodeling without causing any irritation.
- ❖ As a convenience to the surgeons, Healicoll is commercially available in varied sizes beginning at 5x5 cm to 60x60 cm.

The above statements are clinically tested and the product has been successfully used for more than three years on thousands of burn victims, trauma, ulcer and donor site injuries.

Upon request we may also provide our product information for your review and we are very much interested in being part of the preferred vendor list.

For more information or to place an order for Healicoll, please visit our website www.advanced-biotech.com or contact me at **044-24744650 & 24891659** (e-mail address: info@advanced-biotech.com).
